

Lead Times Reduced

Lead times on non-stocked standard and Insta-Quote drill inserts have been reduced by up to 50%, enabling customers to now obtain tooling in just 15 working days in most cases.

This improvement to lead times provides AMEC customers greater manufacturing flexibility and gives customers faster access to tooling with non-stock diameters and geometries to maintain production efficiency and flexibility as well as helping users secure business in today's fast paced and competitive manufacturing environment.

The changes are listed below:

Product	Previous Lead Time	New Lead Time
T-A [®] & GEN2 T-A [®] Non Stock (with Standard Geometry)	20-25 Days	15 Days
T-A [®] & GEN2 T-A [®] Non Stock (with non-standard geometry)	25-30 Days	15 Days
GEN3SYS [®] Non stock (with standard or non-standard geometry)	25 Days	15 Days
High Performance Non Stock Standards	25 Days	20 Days

You will see a change in lead times for the following items, and this will be reflected on all future quotes:

Product	Previous Lead Time	New Lead Time
Insta-Quote for blades made from blank	-	20 Days
Insta-Quote blade made from scratch	40 Working Days	35 Days
